### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Chuang on 9/19/06.

The application has been amended as follows:

In the claims:

In claim 16, line 7, after "spring", --cord--has been inserted.

In claim 16, line 8, after "wherein the microphone", --means--has been inserted.

In claim 16, line 9, after "spring", --cord--has been inserted.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a headset with a spring loaded microphone. Independent claims 1, 9, 16 and 18 identify the uniquely distinct feature of a spring cord which is a separate visually and physically distinct cord from the electrical cord and has a first end coupled to an earbud and a second end connected to a microphone, wherein the microphone is capable of bidirectional movement associated with extension and retraction of the spring cord. The closest prior art, Smith (US 2002/0181729) teaches a coiled cord attached to an earpiece speaker for strain relief with a spring cord and electrical cord housed in a common sheath and Poutiatine (US 2002/0023814)

teaches a dual retractable cord device with a sliding electrical connector. The prior art fails to anticipate or render the independent claims obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
